

We are...

4bpm and we tell crazy stories about normal things.

Our strength lies in creating captivating worlds. As a neurodivergent and queer team, we want to share our unique perspective and experiences in life through our narrative.

We are currently working on
Portal to the Cosmobeat, a cosmic
coming-of-age story... with DANCE BATTLES!

After working on several smaller projects together and branching out into the industry each by ourselves, we are now able to reunite and have founded 4bpm with the support of the German federal founding grant "Press Start".

Our studio is based in Darmstadt with a core team of 4 people. We place heavy value on amplifying the voices of all kinds of communities and we are looking to work with partners that support that mission.
